Summary

MCA graduate with hands-on experience in software development, data analytics, AI/ML, cloud computing and full-stack development. Most recently a React.js developer on the Kroger project at Plan4AI, where I also taught Python to beginners.

I build responsive React interfaces, FastAPI backends and data-driven models. I work in Python, JavaScript, React.js, SQL, AWS and Git, and I'm interested in scalable, efficient, business-focused technology.

Selected projects

Eight projects across NLP, machine learning, data analysis and frontend. Each name links to its code where it is public.

Project	What it does	Stack
AI-Powered Resume Analyzer	End-to-end NLP pipeline that parses resumes, extracts skills and returns ATS-friendly feedback through a FastAPI backend and React.js frontend.	Python, spaCy, NLTK, FastAPI, React.js

Project	What it does	Stack
Loan Default Predictor	Trained classifier behind a Streamlit form that scores an applicant's default risk from age, income and loan details.	scikit-learn, Pandas, Streamlit
House Price Prediction	Regression model on California housing data, with EDA and feature engineering to improve accuracy.	scikit-learn, Matplotlib, Jupyter
Customer Churn Prediction	Predicts which customers are likely to leave, with a backend, frontend and tests. Part of a data analyst portfolio.	Python, SQL, Power BI, Tableau
HI-TECH Controls Business App	Job-tracking workflow for a hardware-repair business, from order intake to completion. Client project, code is private.	Workflow design, UI/UX
UI Clones Portfolio	Pixel-perfect, responsive recreations of the Netflix, Spotify and Instagram interfaces.	HTML5, CSS3, JavaScript
AI Meeting Summarizer	Turns long meeting conversations into short summaries. In progress.	Python, NLP
Data science notebooks	NumPy, Pandas, data cleaning and charts in Matplotlib, Seaborn and Plotly.	NumPy, Pandas, Seaborn, Plotly

Experience

Frontend Developer / React.js Developer, Plan4AI

Feb 2026 – Jul 2026 · Remote

- Maintained and updated a React.js application for the Kroger project.
- Implemented UI changes, fixed frontend issues and updated existing components.
- Worked in VS Code with React.js, JavaScript, HTML and CSS to extend the application's functionality.

Python Trainer, Plan4AI

Mar 2026 – Jul 2026 · Remote

- Taught Python to beginners: syntax, variables, data types, conditionals, loops, functions, data structures and OOP.

Frontend & Digital Branding Intern, The Minies

Apr 2024 – Jul 2024 · Vadodara, Gujarat

- Rebuilt client storefronts in React.js with custom CSS, improving page-load performance scores by about 25%.
- Worked with designers to refine UI/UX flows, reducing bounce rates on redesigned pages.

Cloud Computing Intern, Internselite

Jun 2023 – Jul 2023 · Remote

- Completed an intensive programme on cloud fundamentals: IaaS, PaaS, SaaS and virtualisation.
- Built sample microservice deployment pipelines and earned the programme certificate.

Skills

Area	Skills
Frontend development	React.js, JavaScript (ES6+), HTML5, CSS3, Responsive UI, Accessible UI, UI/UX design, Shopify, Figma, Adobe XD
Backend & APIs	Python, FastAPI, REST APIs, Java
Data science & ML	Machine learning, regression modelling, EDA, NLP pipelines, spaCy, NLTK, Pandas, NumPy
Databases & BI	SQL, NoSQL, Power BI, Tableau, Excel
Cloud & infrastructure	AWS, GCP, virtualisation, IaaS, PaaS, SaaS, microservice deployment
Tools	Git, GitHub, VS Code, Jupyter, Streamlit

Education and certifications

Degree	Institution	Dates	CGPA
Master of Computer Applications (MCA)	Alliance University, Bengaluru	Nov 2023 – Present	7.5 / 10
Bachelor of Computer Applications (BCA)	Maharaja Sayajirao University of Baroda, Vadodara	Jul 2021 – May 2024	6.9 / 10

Certifications

- Foundations of UX Design (Google, Coursera)
- Data Analysis & Visualization with Power BI (Coursera)
- Introduction to Databases (Coursera)
- Data Science & Big Data Analytics, incl. Hadoop (Coursera)
- Hadoop Platform and Application Framework
- Teamwork Skills: Communicating Effectively in Groups

GitHub repositories

All 13 public repositories on github.com/saiyedwali, most recently updated first.

Repository	About	Language	Last updated
AI-Resume-Analyzer	NLP resume analyzer with ATS-friendly insights	HTML	4 Jun 2026
AI-Meeting-Summerizer	AI meeting summariser, in progress	Not set	30 May 2026
Loan	Loan default prediction with a Streamlit app	Jupyter Notebook	4 Feb 2026
data-science-project	End-to-end ML project on California housing prices	Jupyter Notebook	19 Dec 2025
data-science	NumPy, Pandas, cleaning and visualisation notebooks	Jupyter Notebook	19 Dec 2025
saiyedwali	GitHub profile README	Not set	5 Dec 2025

Repository	About	Language	Last updated
python-repository	Python practice	Jupyter Notebook	5 Dec 2025
DATA_ANALYST_PORTFOLIO	Data analyst portfolio with churn prediction	Python	14 Oct 2025
Java_class	Java coursework	Not set	25 Mar 2025
machinelearningpractice	Machine learning practice	Not set	12 Mar 2025
data-structures-using-python	Data structures in Python	Jupyter Notebook	3 Feb 2025
Netflix-clone	Responsive Netflix interface clone	CSS	11 Nov 2024
portfolio	Earlier personal portfolio site	HTML	24 Sep 2024
